

WHOLE GOODS ITEM NUMBER REFERENCE CHART

Temptrol® Shower Valve

The Highest Quality Shower Valve in the Industry, Now Faster and Easier to Install

With the launch of our new Temptrol valve we have made a change to the way you order showers from Symmons. We will no longer offer “full showers” which include both the valve and the trim. Instead, you will need to order the valve separately from the trim.

NOTE: This change does not currently apply to the S-valve.

EXAMPLE

If You Used to Order

3500-CYL-B

Single item number previously included the rough and trim

You Will Now Order

3500-CYL-B-TRM

262BODY

MODIFICATION CHART

| Modification | SKU Modifier |
|--------------------|--------------|
| Bracket | BR |
| PEX Crimp | P1 |
| PEX Cold Expansion | P2 |
| CPVC | CP |
| Reverse Seat | RV |
| Checks* | CHKS |

See the full whole goods product item list at www.symmons.com/temptrol-info

New Ordering Tips

- ✓ Your shower trim item number should end in “TRM”
- ✓ Don't forget to order your valve(s)
- ✓ For valves with stops, order the “X” version (262XBODY)
- ✓ For alternate fittings (PEX or CPVC) or a Rapid Install Bracket, order the valve with the proper sku number modifications (See Modification Chart)

* Checks are only available on valve bodies with stops (includes “X”)
