

# COLLECTIONS

  
**SYMMONS**<sup>®</sup>  
the smart choice<sup>™</sup>

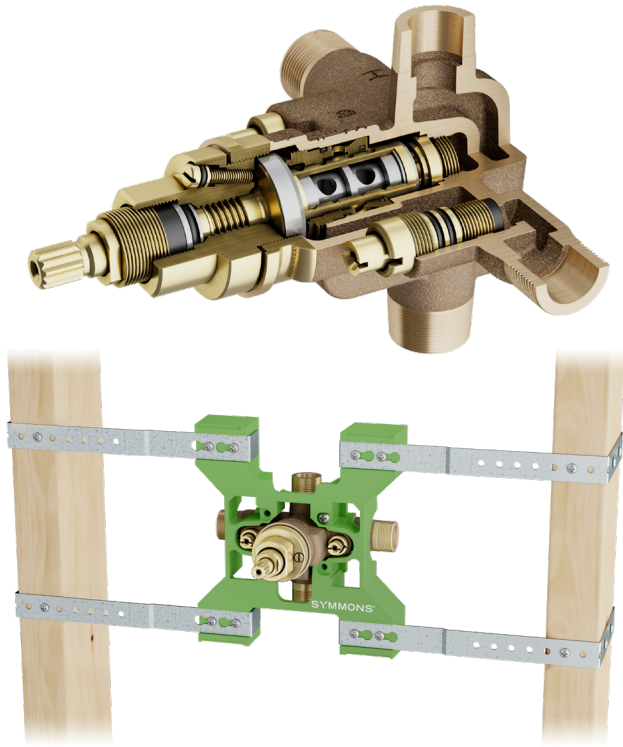

Our Collections are beautiful to look at, but what you don't see is just as important. At Symmons, we use the highest quality parts from the inside out. Every Collection is backed by a customer-first culture. It's an inner strength and outward focus that makes Symmons the smart choice.

**Beautiful** from the inside out.

Introducing the New and Improved

# TEMPTROL<sup>®</sup>

## Shower Valve

### The Highest Quality Shower Valve in the Industry, Now Faster and Easier to Install.

The Symmons Temptrol pressure-balancing, anti-scald valve has been long associated with durability and quality. Showers installed in hotels, schools, and homes worldwide share a common trait: they are powered by the Symmons Temptrol valve.

Learn more at [symmons.com/temptrol](https://symmons.com/temptrol)

## One Great Valve, Many Design Choices

### Start with Symmons. Stay with Symmons.

With a Symmons Temptrol valve behind the wall, you can upgrade to any Symmons trim in a variety of designs to quickly and inexpensively enhance any bathroom décor.

Beautiful designs may cover the superior functionality that resides behind the wall, but it is the Temptrol valve that is the power behind our showers.

# Temptrol® S-Valve

## Experience the Power of a Better Shower

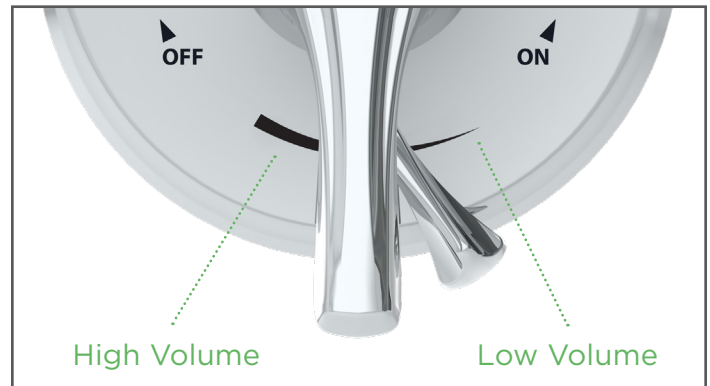

The Symmons Temptrol S-Valve allows you to control the water volume from a central location on the shower trim. Keeping style in mind, a lever is integrated into the design and is situated below the shower handle for ease of use. This lever can divert water between the shower and tub\* or adjust the water volume from the showerhead.

## Tub/Shower Control

In this tub/shower configuration, the S-Valve lever diverts the water between the shower and the tub.\*

## Volume Control

For shower-only configurations, customize your showering experience by adjusting the water volume coming from the showerhead by moving the S-Valve lever.

\*Diverting between shower, hand shower, and tub coming late 2019.

# Rebuild. Remodel. Renew.

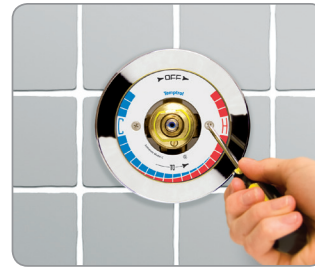

Before

After

The Symmons Temptrol pressure-balancing, anti-scald valve makes transforming the look of your shower easy and cost-efficient. Our valve is compatible with a wide variety of trims, making design options unlimited. If you start with Symmons, staying with Symmons will save you time and money over the life of your property.

## 1 Rebuild Your Valve

Flow control spindle (TA-10)

Hot and cold seats (TA-4)

Simply replace the flow control spindle (TA-10) and seats (TA-4) to easily extend the life of your valve. No need to get behind the wall.

## 2 Remodel Your Bath

Symmons shower trims are available in a wide range of styles and finishes to suit any project or budget.

## 3 Renew Your Warranty

Rebuilding and remodeling with Symmons will renew your 5-year commercial warranty.
